

SEBASTIAN LEONARDO SANTOS

Quispamsis, NB

sebysantos2006@gmail.com

(506) 639-8467

QUALIFICATION HIGHLIGHTS

- Fast learner that can be flexible with a variety of tasks.
- Excellent with time management, optimizing workflows, and improving efficiency in tasks.
- Great communication skills and open to working with others in a leading role.
- Proactive with pursuing tech-related hobbies and interests that leverage and improve all skills.

SKILLS & KNOWLEDGE

- Object-oriented programming principles and coding MVC-framework web applications in C# and Java
- HTML, CSS, advanced-level JavaScript and PHP coding to develop websites including Express & React
- MySQL and Mongo databases intertwined with web applications using Entity Framework and LINQ
- Intermediate Godot and GDScript experience
- Experience with GitHub and Github Desktop in collaboration with multiple team members
- Game design and development principles with experience making small-scale projects
- Basic Project Management Fundamentals including Agile Development methodologies and SDLC
- Coding in C++ with embedded systems like Arduino

WORK EXPERIENCE

Document Control – Irving Oil Limited

(Summer 2025)

- Learned the inner workflow of Irving's document management team and worked on three projects involving database document management that allowed me to optimize the efficiency of my work process without sacrificing the reliability or accuracy of the work. These tips to improve efficiency were passed along to the team so we could all benefit.
- Created a solo presentation summarizing my work at the end of term and presented to Irving Oil's IT leadership.

Loch Lomond Villa Teaching & Installation – Tech*Know

(Jan-Mar 2025)

- Learned how to install various Google devices in senior's homes and teach them how they are used and how they can help with their everyday lives. This helped to better connect these seniors with technology who previously had no experience.
- Troubleshooted various other problems with devices in senior's homes on their request.

Janitor – J Valle Cleaning

(2022-Present)

- Three years of experience mopping, sweeping, vacuuming and sanitizing floors and offices demonstrate consistently positive performance of repetitive work.

EDUCATION

- IT: Software Development student at New Brunswick Community College (2024-2026)
 - Worked on many small and large-scale group projects with classmates as well as multiple presentations. Maintained a consistent 4.133 cumulative GPA since beginning in September 2024, demonstrating good time management when handling schoolwork alongside working with Tech*Know and J Valle Cleaning.
- Kennebecasis Valley High School Graduate in High Honours with Distinction (2020-2024)
 - AP Calculus and AP Physics student that enjoys subjects with logical thinking. Valedictorian nominee.

EXTRA-CURRICULAR ACTIVITIES

- Pursuing solo game development in Godot and GameMaker. (2022-Present)
 - Independently learned coding languages through following tutorials and documentation, widening understanding of technical subjects in ways that intertwine with things learned in both school and work.
